Shi Jin

Big fan of understanding the nature with theory and computation

Employment

Amazon Web Services (AWS) Seattle, WA, USA
Software Development Engineer *July 2019 – Present*

Worked in AWS EC2 high-performance computing (HPC) team, developed the performance testing framework for HPC benchmarks on AWS parallel cluster.

Education

University of Washington (UW) Seattle, WA, USA
PhD in Physics *June 2019*

- Thesis: *Fission dynamics in a microscopic theory.*
- Advisor: Aurel Bulgac, Professor.

University of Science and Technology of China (USTC) Hefei, Anhui, China
Bachelor of Science, with distinction *June 2013*

- Outstanding Graduates Award (top 5% academic performance)

Knowledge & Skills

- 5+ Years of experience in high-performance scientific code development with C and CUDA (GPU) programming using parallel programming libraries (MPI).
- 5+ Years of experience in working on leadership supercomputers: OLCF Titan, Summit, NERSC Edison, NERSC Cori, Piz-Daint (Switzerland), TSUBAME 3.0 (Japan).
- 5+ Years of algorithm designs for solving large-scale linear equations, partial differential equations (PDEs), and numerical optimizations.
- Independent research in various real-time simulations of nuclear dynamics with density functional theory (DFT), published in top peer-reviewed journals Physical Review Letters, Physical Review C, etc. (see publications).
- Hands-on experience with various performance profiling tools: CrayPAT, NVIDIA Visual Profiler, etc.
- Mastery of programming languages: C, C++, assembly language, Python, Matlab, Fortran, Bash.
- Miscellaneous knowledge: computer systems, scientific visualizations, machine learning.

Language

- Chinese
- English

Publications

- Journal paper
  - A. Bulgac and S. Jin, *Dynamics of Fragmented Condensates and macroscopic entanglement*, Phys. Rev. Lett. 119, 052501 (2017)
